Mr. George Kline
New Jersey Department of
Environmental Protection
428 East State Street
Trenton, NJ 08625

Dear Mr. Kline:

Enclosed please find six copies of the Site Operations Plan for the Millington, Great Swamp, New Vernon Road and White Bridge Road Sites. We are sending these copies to you at the request of Nigel Robinson, USEPA Region II Project Officer.

An earlier draft of the plan was reviewed by the USEPA Region II technical staff in New York and simultaneously reviewed for Quality Assurance/Quality Control by the USEPA Regional Office in Edison, New Jersey. At that time, a draft was sent to the NJDEP by USEPA Region II for review and comment. Upon receipt of all comments, a meeting was held between HART and USEPA Region II on the revisions required for acceptance of the Site Operations Plan. Questions arising at that meeting were resolved by Nigel Robinson and the NJDEP.

Subsequently, HART made the necessary revisions to the Site Operations Plan and submitted them to USEPA Region II on November 21, 1985 for final approval. To expedite this process, we included a memo which details the required revisions. This memo has been included with the six copies we are providing.

Due to safety and access considerations, work should be started during the winter months. Currently, EPA is anticipating an approval of the Site Operations Plan by mid-January. A series of public awareness meetings is currently being scheduled for the end of January 1986. If you would like to attend one of these meetings, please let us know.

ASB 001 0520

If you have any questions or comments regarding the Site Operations Plan, please call Nigel Robinson at (212) 264-8674 or Frances Barker or myself at (212) 840-3990.

Sincerely,

FRED C. HART ASSOCIATES, INC.
